

PRESS RELEASE

05 September 2008

**Everything you need to know about autumn after-school activities from mykidstime.ie**

Forget the headache of trying to organise after school activities for your kids this autumn and take a look at mykidstime.ie.

Making it easier for parents to find out what's on after school, a searchable list of classes around the city and county is available in one handy place, mykidstime.ie

Choc full of details of classes and activities starting this autumn, broken down by category, ranging from Arts & Crafts to Sport to Cookery, there are plenty of ideas to keep kids learning and active.

And, if transport to classes is a problem, then check out the mykidstime.ie MyChat forum, where you can hook up with other parents to share school and class runs, helping to make life a little bit easier.

Michelle Davitt, one of the founders of Mykidstime.ie said, "As parents, we know how time-consuming it can be to find out information, and often when you do find out about the class, it's too late as it has already filled. As well as putting all the autumn class information we could find up on our website for parents, they can find other parents through our MyChat forum to share the burden of running the kids to class. We hope this will contribute to less traffic and less stress for parents!"

Galway based website Mykidstime.ie is a free resource for families in Galway. With a full range of listings for activities, classes and clubs for children of all ages, as well as information on services and events for children and families.

Parents can also sign up for a free monthly newsletter with information and suggestions for things to do, as well as regular competitions as well.

For more information about activities in your area log [www.mykidstime.ie](http://www.mykidstime.ie) or email [info@mykidstime.ie](mailto:info@mykidstime.ie)
