## Big Bug Scavenger Hunt

For this hunt, you might want to bring along plastic tubs to put bugs into and consider taking a picture of each bug before you let it go again.

Good places to look for bugs are inside flowers, on leaves and under rocks.

Ask each child or team of kids to see how many of these bugs they can find:

- The most common bug
- The ugliest bug
- The fastest bug
- The slowest bug
- The best camouflaged bug
- The smallest bug
- The largest bug
- The cutest bug
- The most interesting bug
